Monthly Jr. Rifle Report:

Our Jr. Shooters have been traveling and competing in National and international competitions over the last two month. In two weeks the busy summer schedule will conclude. After the season concludes we will post a list of the team and individual accomplishments over the summer. Amy and Zach will be leaving next week to begin the next leg of their shooting career. Amy will be shooting with a shooting scholarship for the University of Memphis and Zach with a shooting scholarship at the University of Akron Ohio. I expect both to do very well their first year shooting in NCAA competitions.

August 10th the Ontelaunee coaching staff ran a beginners rifle clinic here at Ontelaunee. 12 beginners eager to learn about competitive rifle shooting attended. In addition to some range time with live fire the students learned about all the aspects of competing as a junior shooter, range safety, scholarships, competitions and equipment. Experienced competitive Ontelaunee Jr. Megan Waidelich helped to demonstrate equipment and correct shooting positions.

The team and parents will be making range repairs and improvements over the next few weeks on our regular practice nights of Tuesday and Wednesday. We will finish the flooring up to the air rifle firing line, install the 10 meter air rifle target hangers, and rebuild the back stop front wall. Regular Practice will begin again in September.

September 7& 8 the team will sponsor our second prone 3200 for the year at the North End Competition Range.
