****ATTENTION** Additional New Range Rules**

The Club's insurance company NOW requires the following 2 new rules & regulations be implemented. The new rule is: **No open toe shoes, no low cut tops or cut off shirts.**

These rules are to prevent injury from hot brass. We are required to enforce these rules because this is the company that insures our club. The open shirt rule has to do with brass easily flying down a person's shirt and burning them. It is not just about hot brass burning your skin. This insurance requirement also has to do with the reaction some people have while holding a firearm. Some people react in an unsafe way if when they are holding a firearm and hot brass goes down their shirt.
